Overview

Every five years, the Australian Bureau of Statistics (ABS) counts every person and household in Australia. We call this the Census of Population and Housing.

If your organisation was involved with the 2021 Census, we would like to hear from you.

To help us improve our processes, please complete this short survey (5-10 minutes).

We are grateful for all Census supporters. This includes organisations that:

- hosted Census face-to-face help events
- helped their clients/members of the public with the Census
- helped with Census homelessness enumeration

Thanks to so many helpful people like yourself, over 9.1 million households have now submitted their Census forms, which is a fantastic result.

The updated data means that thousands of organisations across Australia will be able to plan more targeted facilities and services into the future, for the benefit of all Australian residents.

Learn more about the Census by visiting www.census.abs.gov.au/supporters

There will be an option to provide your personal details if you consent to being

contacted about your responses. The ABS will not disclose your personal information to anyone.

If you have any questions or concerns, please contact us by emailing census.hubs@abs.gov.au
